This Skills Bootcamp is an introductory qualification for individuals who are looking to improve or gain fundamental knowledge in the area of **Data Analytics.** The course will introduce learners to the terms and principles used within the **Data Analytics** world, and on completion will allow them to make a positive contribution to **Data Analytics.**

Dates:
Our Digital Skills Bootcamps run twice per year, two sessions per week, for 10 weeks from Monday 6th January.

Are you eligible?
You must be aged 19+ and can be employed, self-employed or unemployed.

Are you an employer?
Tackle any skills gaps within your business today by upskilling your existing workforce on our Skills Bootcamps. A course fee subsidy of 90% is available for small and medium sized businesses; large employers will receive a 70% fee subsidy.

Our Skills Bootcamps can be delivered flexibly and we urge individuals and employers to get in touch should they require a tailored offer.

How will you be assessed?
The course will be assessed through a portfolio of work.

Cost:
Skills Bootcamps are fully funded for those unemployed and looking to gain employment or part-funded by employers for those employees looking to upskill in their current role.

For more information on fees please contact bootcamps@furness.ac.uk, 01229 825017.

Following completion of our Digital Skills Bootcamps, we will support you to achieve the following outcomes.

- ✓ Development opportunities in your existing role
- ✓ Progression opportunities to further qualifications
- ✓ A guaranteed job interview

At Furness College you will find small supportive, challenging and engaging classes, with the flexibility and opportunity to balance study with work and family life.
