Got a game
changing idea?
We'll help you
bring it to life.

Regional Talent Engines

The Regional Talent Engines programme is designed to help mid-to-late career engineers and innovators take their ideas from concept to reality. With £20,000 equity-free funding, and expert mentorship, we provide the launchpad you need to build a successful business.

**No MVP required. No equity taken.
Just pure support.**

Regional Talent Engines supports you with:

- £20,000 equity-free grant
- World-class training
- 1:1 Mentorship and coaching
- Network of peers and investors

Who is it for?

- Mid-to-late career engineers or technical professionals
- Individuals with a strong idea with little or no startup experience
- Early-stage founders in Northern England, Northern Ireland and Wales

Regional Talent Engines

Your entrepreneurial journey starts here

A proven programme with real impact

- 150+ alumni have gone on to secure investment, launch products, and grow companies.
- Nationally recognised support from the Royal Academy of Engineering.

What Regional Talent Engines participants say:

“ For me, this was a breakthrough. I was able to take to the real world my proof of concept instead of using it in ideal case scenarios. This accelerated my learning, and journey to market. ”

Anas Achouri,
DONAA

“ The Regional Talent Engines programme has been extremely useful on both a personal and business developmental level. It has inspired, challenged, supported and energised and was the right kick I personally needed at the right time. ”

Martin Jones,
Ugly Duckling Renewables
